Dear Parents

Autumn Term Targets

I am writing to let you know about your child's curriculum targets for the Autumn term.

Each school term the children are given two targets; one literacy target and one numeracy target. This term, as a school we are concentrating on –

In literacy – developing children's cursive handwriting.

In numeracy – to improve children's recall of multiplication facts.

Your child's targets are stuck in the front of their reading diary for both yours and their reference; a sticker will be awarded when the target has been met.

Shown over the page is an example of how the random multiplication questions are set out. Times tables are also shown in the front of your child's reading diary for reference.

We have also sent home a poster showing the school's cursive handwriting letter formations.

We hope that, with this information, you will now be able to play a part in helping your child to achieve their curriculum targets. Of course, if you wish to discuss this with us further please contact us at school.

With thanks,

Mrs N Robinson
